Marian Kelly

Dear Marian:

Thank you so much for helping us make the fourth annual Women's Night Out such a success. You were fantastic, hilarious and so much fun!

The comments from the evening keep pouring in on how wonderful you were and how much the women needed a night of fun and laughter! They frequently refer to your "petite clothing store" story and re-tell it to their family and friends who were not there.

While looking through the participant evaluations, the comments were only positive when referring to you. Some excerpts include "speaker was outstanding, wonderful, top notch, speaker was better than past speakers, hilarious, very entertaining, fantastic and really helped to relieve the stress."

Thank you very much for helping Mercy Medical Center-Sioux City offer over 1700 women a fantastic night out! You were not only entertaining, you left everyone with a nice message about reducing stress and focusing on what is really important in life.

Thanks again for your humorous approach to womanhood.

Gratefully,

Beth Sitzmann
