

MERCY HEALTH CENTER

May 2, 2006

Ms. Marian Kelly

Dear Marian:

On behalf of the Mercy Health Center Foundation I wish to thank you for your superb performance at the Body, Mind and Spirit Women's event in Fort Scott and offer my whole-hearted recommendation.

If the belly laughter of nearly 400 women is any gage of your abilities, then we hit a home run with your presentation. There were almost 300 surveys returned and repeatedly the ladies checked yes in response to your performance and then wrote comments around the borders of the surveys.

"Thank you! We need this evening of laughter!"

"Ask Marian to come back next year."

"Can we do this again next week?"

You managed to capture the humor in everyday occurrences as well as growing up as the eighth of 10 children. From 18 to 80, there was humor for every age! I appreciate the fact that you were able to identify the demographics of the audience quickly and adjust your repertoire to fit the audience.

I have heard many other comedians throughout my career and you are at the top of the list. You brought your very special talents to our community and left us smiling and feeling a little closer to one another.

As another lady said upon leaving the theatre, "It was a good girl's night out." For that, we thank you!

Sincerely,

Carla Bryant Farmer
Dir. Marketing and Development
Mercy Health Center
